The variety of Switzerland's landscapes is unparalleled in Europe. And travelling by train is the most impressive way of experiencing this variety. No other country in the world has such an extensive public transport system. Quick connections and optimally coordinated timetables make even the most remote alpine villages easy to reach. With the Swiss Travel System, you can travel quickly, comfortably and enjoyably to your conference location.

Regular timetables.

It could not be simpler

Nearly all trains follow a regular timetable, departing at the same number of minutes past each hour or half-hour. If you need to change trains – no problem! You will be on your way again in just minutes.

Swiss Travel System.

Free travel for guests

Swiss Travel System is the name of a range of tickets, especially for foreign visitors, covering Switzerland's public transport system. For a very reasonable price, you can enjoy free travel by train, bus and boat.

Charter trains.

Travel in your very own train

Surprise your participants at airport arrivals by sending a special charter train to meet them. Book the conference carriage "Le Salon de Luxe", for example, and you can use the journey time to hold a meeting.

Team-building.

Adventure, fun and gourmet treats

Delight your guests with a gourmet trip in a charter train, build a raft together, or send the participants at your seminar on a hunt for hidden treasure. We are happy to come up with more ideas for you.
